Agreements & Acknowledgments

Trading in derivative financial instruments via Tier1fx trading platform is not equally suitable for all clients. The product offering of Tier1fx is mainly directed at the experienced, independently acting investor. In this regard, the Applicant hereby declares the following:

Derivative products are suitable as part of my investment objectives and attitude towards risk and I am able to assess the risks involved in trading them.

The funds deposited on behalf of the entity are the property of the entity and do not represent any third party.

All statements made by myself in conjunction with opening an account with Tier1fx are true and complete. I confirm that the document that will be submitted have neither been tampered with nor digitally edited.

In the event that I have any doubts whatsoever on the product offered by Tier1fx or markets in general, I shall seek professional independent advice.

By completing this application form, accessing Tier1fx website or other service we provide to you, you consent to Tier1fx collecting, maintaining, using and disclosing personal information about you and provided by you as described in our Data Protection Policy.

Risk Disclaimer:

OTC leveraged products, including CFDs, are complex investments, which come with a high risk of losing money rapidly due to leverage. You acknowledge that trading derivative financial instruments, including foreign exchange, futures, options, contracts for differences and commodities carry a substantial potential risk of loss and you understand the risks involved and that you are willing to undertake this risk. You further confirm your understanding that the value of these financial instruments is influenced by the price changes of their underlying reference instruments, that these prices may fluctuate both rapidly and widely, that such factors can be neither predicted nor controlled by any party, and that leverage, or “gearing” will disproportionately impact the results of any such transactions. Losses can therefore quickly compound. You will be responsible to ensure your account has sufficient margin to sustain your trading activity. You should consider carefully whether you understand how CFDs work and whether you can afford to take the high risk of losing your money.
